

Communication

Applicants' would like to bring to the Examiner's attention the fact that the title of this application was amended by Second Preliminary Amendment on December 28, 2006, to read:

**Wireless Packet Communication Method and Wireless Packet Communication Apparatus**

The title, as reflected in the Notice of Allowance does not conform to this amended title. (Instead, the Notice of Allowance substitutes the "radio" for "wireless").

Although the applicants do not believe this difference in title affects the scope of the claims, applicants nevertheless request appropriate correction so that the application will issue with the proper title, as amended.
